FULMARS look much like gulls but their beaks and nostrils are like the albatross. The fulmar nests on high rocky coastal cliffs, gathering each year to rear their young. Famous spots are cliffs off the coast of Canada.

Puzzles

Shapes

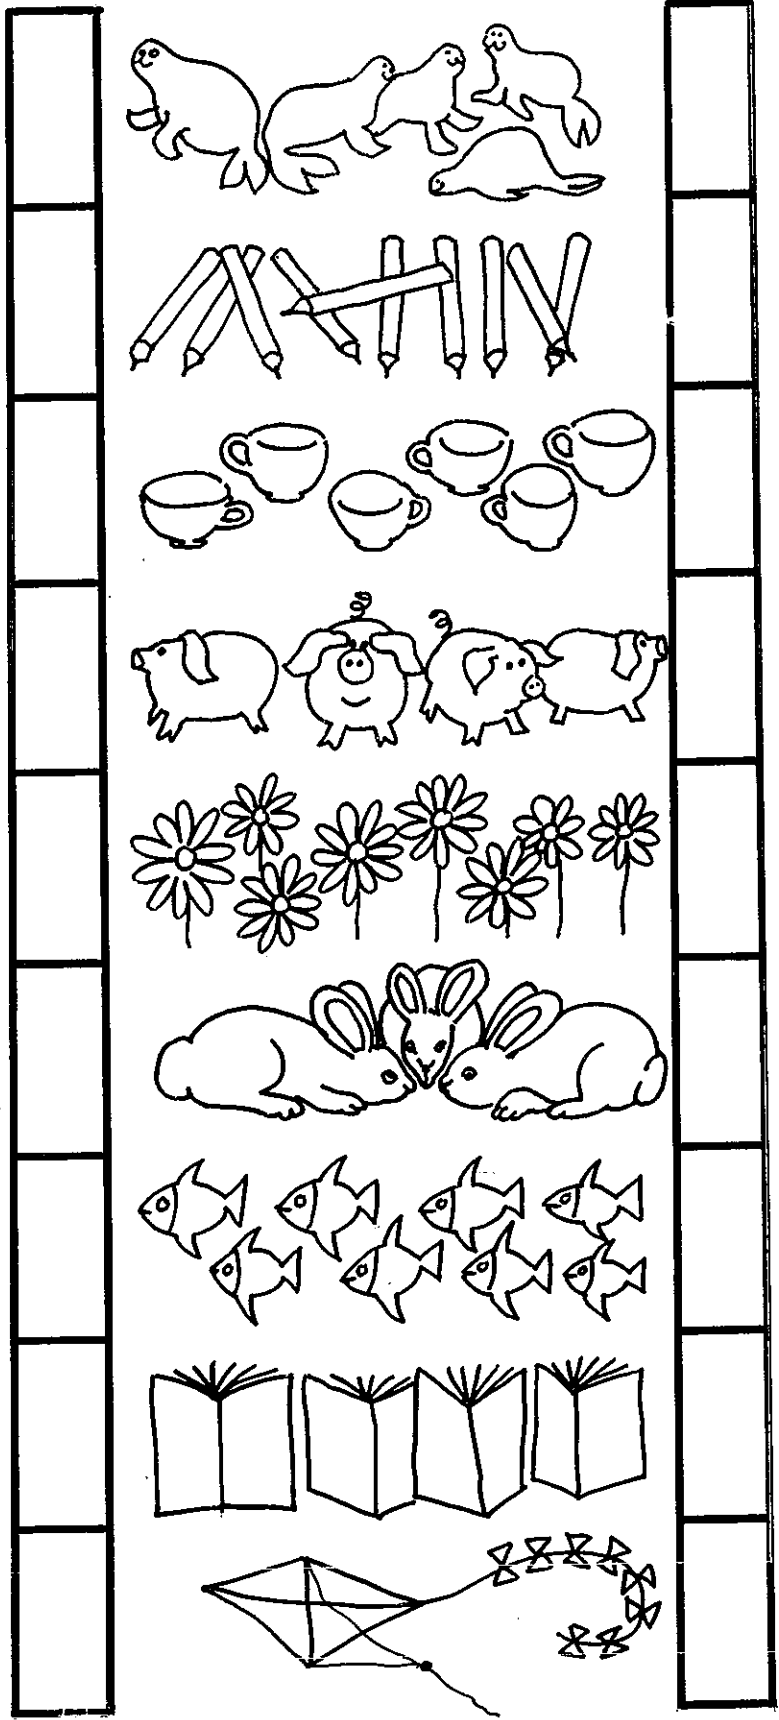

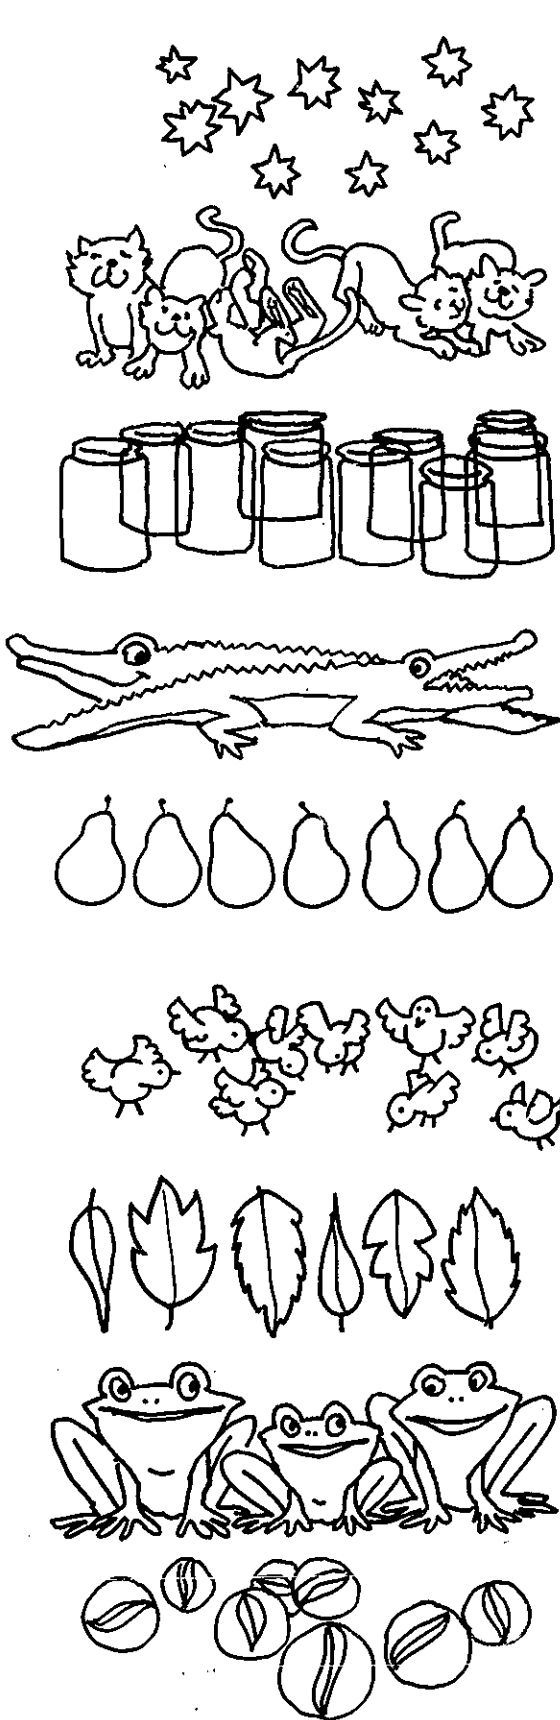

How many circles? How many triangles?
How many squares? How many rectangles?

Answer: 13 circles; 13 triangles; 9 squares; 3 rectangles

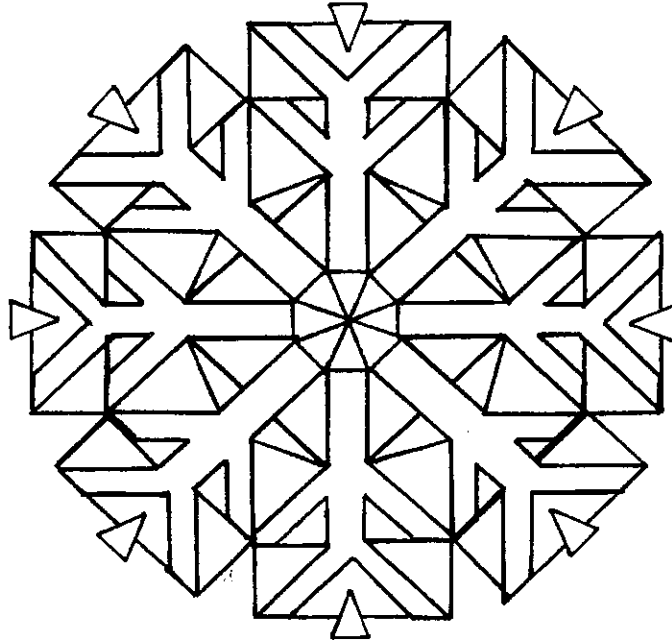

Name _____

How many are there?
Write the numeral in the box.

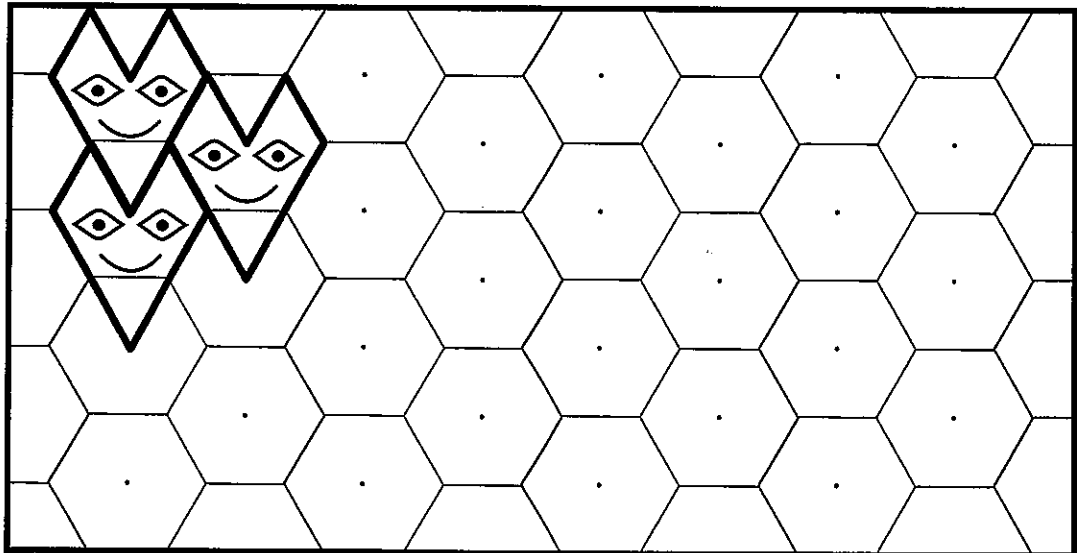

Tricky triangles

Colour in the triangles to form a pattern. There is no right or wrong way.

Pattern making

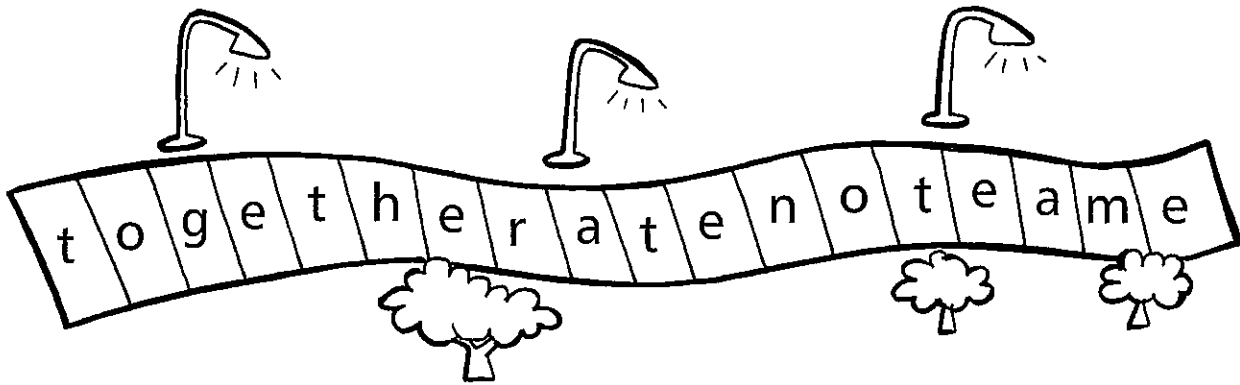

Complete the pattern by filling the page with the mask design.

THINKING

Word road

How many words can you find in this word road? Start at 't'.

Same and different

Look at the word in capital letters at the beginning of each row. Then **circle** the word in the row that has a **similar** meaning, and **underline** the word that has the **opposite** meaning.

DIFFICULT hard easy cold poor

UNHAPPY cheery bent sad open

BROAD narrow sweet silly wide

START end blue sore begin

LOFTY tall old short delicate
