

### **Vision**

To foster the social, emotional, physical and intellectual well being of our students so that they develop their self-esteem, confidence and become well-balanced, independent members of our community.

### **Mission**

We are committed and are working towards

- giving all our students the opportunity, the tools and skills so that they can strive to reach their maximum potential in all aspects of their education.
- working in collaborative partnership with staff, student, families and; acknowledging and catering for diversity.
- providing a learning caring sharing environment

### **We believe**

Our teaching is to be embedded in the Alawa philosophy of Strong Beginnings, Ignition and Self-Learners, which are:

- building positive relationships across the school community
- modelling and developing social skills, co-operatively and collaboratively
- establishing developmental learning groups that have high expectations
- using a range of teaching and learning approaches to ensure all students needs are catered for
- utilising ICT as a learning tool across all learning outcomes
- the farm providing a practical opportunity for students to learn and implement their skills and promote science.
