

Learning Support Year 10

The Learning Support Class at Casuarina Senior College caters for students with Special Needs.

These are students who have been referred and assessed through the Student Services assessment process as having an identified disability for which they need Special Education support.

Academic and inclusion support assistance is coordinated by the Learning Support teacher.

Pastoral Care

The Learning Support class provides a point of contact for students and families at Casuarina Senior College.

English, Maths

Students have the option of studying English and Maths in the Learning Support class.

Study Support

The Learning Support class also provides assistance with time management, goal setting and study skills.

Educational Adjustment and Transition Plans

The Learning Support teacher in cooperation with the Transition Support Officer, the student and parents prepare an annual Educational Adjustment and Transition Plan. These plans detail the goals, needs and future options for individual students.

Work Experience/VET

The Work Education Transition Support Officer from Student Services Branch attends classes one day each week to help students plan for future work options and organise work experience placements on a term by term basis.

Students in the Learning Support class can work on a timetable that allows them to have Wednesdays off school to attend Work Experience or VET.

Flexible Timetable

Students can study 2 or more subjects in mainstream College classes and access study support in the Learning Support class room during their free study lines.

Casuarina Senior College aims to provide an outstanding education and quality outcomes for all students through the provision of rich learning experiences and a varied curriculum designed to maximise student engagement.

Students are able to access all subjects without incurring tuition costs. A number of subjects also offer extended learning experiences which are optional and for which the College Council will seek the reimbursement of associated costs from parents of participating students. Examples include additional materials, excursions, etc. Indicative reimbursement costs for subjects containing extra-curricula activities are identified throughout the handbook by an asterisk (*).

For further information please contact the College on 8920 1211.

Learning Support Year 10

Year 10 English LS

Subject Description

Year 10 English LS aims to improve student literacy by providing opportunities for students who have learning support needs to build their skills in the areas of listening, viewing, speaking, reading and writing. It involves the study of literary and non-literary texts, media, creative writing and oral communication. Students are also taught to make connections between texts through a critical literacy study.

Content and Assessment

- Text Response
- Text Production
- Oral Presentation
- Critical Literacy Study
